Subject: Don't take away Uber!

Uber is an excellent and convient transportation service. Taking it away would be just foolish! South Carolina is really messing up on this, the state tries so hard to reduce drinking and driving, and Ubers service helps take intoxicated drivers off the road. In all honesty, this just proves that South Carolina is unable to progress! Welcome to the 21st century! Uber continues to thrive everywhere else in the nation, including popular cities such as Chicago and New York City. Take note!

Sorely disappointed,

Noah K

Subject: I support uber

To whom it may concern,

Your continued pursuit of uber is discouraging and disgusting. Uber is providing a much needed service that is safer and more reliable than our current options. The consistent attacks against uber only show that you do not have the consumer's interests in mind- you don't have South Carolinian's interests in mind. I will continue to support uber and I will continue to use them. Please find a way to allow capitalism to succeed rather than confining yourself in a box that is past its prime.

SC needs Uber.

Please allow Uber servicing our transportation needs in SC.

Sincerely,

Michelle Ward

Finally we have an affordable and reliable public transport option and you you want to take it off the road? The taxi options in Charleston have been a disgrace for years. Overpriced, dirty old cabs that simply don't service the Mt. Pleasant area effectively.
Leave Uber alone and let me decide who I give my money too.

Subject: Full support of Uber - the order to cease operations is a disservice to SC

I am writing today to let you know that I am full support of finding a way to allow Uber to continue ride sharing in SC. I have taken more Uber rides than taxi rides since it has come to SC and can say that as a SC consumer, I feel far safer riding with Uber than I do with any cab I've taken in town. Telling Uber to cease operations is a disservice to SC residents and tourists alike.

I will not simply take a cab after being exposed to how nice and safe it is to ride share. I am not taking away \$ from cab drivers b/c I don't / won't take them. They're dirty, unreliable and I don't feel safe when I'm alone.

Please find a way to keep Uber in SC.

Thank you!
Ellen McCarthy
